Self-control

You are the God who sees me
– Genesis 16:13

“As a parent of three children who have all gone through Wrawby St Mary’s Primary School, I can honestly say it has been an incredibly positive and rewarding journey. Each of my children has not only achieved great academic progress but has also grown into confident, well-rounded individuals, thanks in no small part to the nurturing environment provided by the school.

Wrawby St Mary’s feels like more than just a school – it’s a supportive family. The staff are genuinely caring, approachable, and always willing to listen. They take the time to understand each child’s individual needs, strengths, and passions, helping them to thrive both in and out of the classroom.

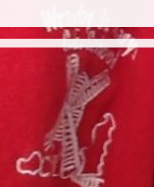

It’s been especially heartwarming to see my eldest child return to the school to support with sports sessions. He has been truly impressed by how much the school has grown and developed in recent years, not just in terms of facilities and staffing, but in its continued commitment to excellence and inclusion.

The headteacher and all the staff are amazing. Their dedication, vision, and passion for education and personal growth help create an environment where children feel valued and inspired every day. I’m so grateful for the experiences my children have had at Wrawby St Mary’s – it really is a special place.” July 2025
